Ajax Has been building roads in Florida  
since 1981.

Ajax Paving is a company that plays a  
crucial role in creating and maintaining  
the roads that connect our  
communities.

Take a look around—chances are  
there's a road close by, whether you're  
at home or school. Roads are all  
around us, making it easier to reach  
schools, parks, shops, and even  
vacation destinations. Local roads  
keep us connected within our  
communities, while state and  
interstate highways link us to the rest  
of the country. They play a crucial role  
in providing access to essential  
services, boosting the economy, and  
supporting emergency response  
efforts.
